Step 1 – Foot Attachment 3

Step 2 – Attach to Rain Gutter 4

Rack Height Adjustment 5

Before You Begin

- Read all instructions prior to assembling or installing any Holman product.
- Have ladder rack assembled and ready to be installed on van.

Parts List

NO.	ITEM	PART NUMBER	DESCRIPTION	QTY.
1		409CD-00-001	GM FOOT	4
2		11-02085	GM GUTTER CLAMP	4
3		18-4081C	HARDWARE KIT	1

Hardware

ITEM	HARDWARE TO SCALE	PART NUMBER	DESCRIPTION	QTY.
1		21813	5/16"-18 X 1-1/2" CARRIAGE BOLT	4
2		0169777	5/16"-18 LOCK NUT	4
3		33080	5/16" WASHER	4
4		11241196	3/8"-16 X 3/4" HEX HEAD BOLT	8
5		11541089	3/8" WASHER	8
6		0123496	3/8" SPLIT LOCK WASHER	8

DO NOT EXCEED MANUFACTURERS WEIGHT CAPACITY FOR ROOF!

Step 1 – Foot Attachment

- Measure width of rain gutter on van, front and rear, typically they differ.
- Approximately at that width measured from the rain gutter attach mounting bracket as shown. Be sure there is an equal distance from the center of the cross bow to each foot.

- Attach van mounting bracket on each bow using 3/8" x 3/4" hex bolts , 3/8" lock washers and 3/8" flat washers as shown.
- Leave loose until you set the assembly onto the vehicle. Most vans rain gutter is wider at front of vehicle.

Step 2 – Attach to Rain Gutter

- Place rear bow assembly at rear of van, approximately 16" from rear of van. Be sure to leave enough space for the hand to clear the van when operating the rack.

- Insert gutter clamp through mount foot.
- Fasten gutter clamp to foot using a 5/16" x 1-1/2" carriage bolt, a 5/16" flat washer and a 5/16" lock nut.
- Be sure the rear bow assembly is secure, but can still be moved front to rear.
- Place front bow onto roof of van.
- Measure to make sure the front and rear bow are equal distance from each other on both the driver and passenger side of van.

- Once both sides are square and equal distance from each other, TIGHTEN.
- Repeat on all four corners of van.

GO BACK AND TIGHTEN ALL HARDWARE.

ASSEMBLY IS COMPLETE.

Rack Height Adjustment

- Place padding beneath the rack to keep the rack from scratching the roof.
- Loosen the 3/8" x 3/4" hex bolts to each side of bow on the same side vehicle.
- Loosen the 5/16" x 1-1/2" carriage bolts at each end connecting chevy clamp to foot.
- Be sure to keep gutter mount lightly clamping gutter.
- Adjust angle of foot until rack is at desired height.

GO BACK AND TIGHTEN ALL HARDWARE.

ADJUSTMENT IS COMPLETE.
